

# SKADI

## Not your average mitts!

- Warm under compression
- Memory foam comfort
- Insulated with aerogel

## Aerogel over loft

We insulate with SolarCore, the most advanced aerogel composite available. Retaining the insulating value under compression is one of the greatest advantages aerogel has to offer. When traditional insulation compresses, the hot air trapped within the loft is squeezed out.

## QUALITY

Our gloves are made at one of the worlds best winter glove factories. Our manufacturer worked closely with us to ensure this unique material is integrated properly for comfort and durability.

## Features

- Separated fingers
- Wrist leash
- Soft goat leather
- Neoprene cuff
- Reinforced thumb patch
- Thin palm for dexterity
- Padded back for protection

## Order Info

- Wholesale price \$80
- Retailer margin 50%
- Delivered Oct. [REDACTED]
- Cash, Cheque, E-Transfer and Credit card accepted.
- Each pair comes with Nikwax sachet and a Skadi Decal.

# SKADI

## NEW FOR 2023

- Skadi Goat mitt 2.0 - Black/24K gold
- Skadi Goat mitt 2.0 - Cork
- Skadi Goat Glove - Cork

## What we've learned:

With retail stores selling out of the goat mitt multiple times in 2021/2022, there is plenty of demand from consumers. As a result, we've expanded the range of available sizes from Small to X-Large and added a new product the GOAT glove.

## Changes going forward:

Our manufacturer worked closely with us to ensure this unique material is integrated properly for comfort and durability. We're adding more insulation to the tips of the fingers and thumb ensure everyone stays warm. The wrist strap has also been redesigned to prevent exposed Velcro from touching the users wrist.
